

The Tamer Final Four Pool™

Creating solid March Madness pools since D.J.'s sophomore year in high school (1998).

Point system –

- **Each round is worth 64 points, No play-in game.** 2 points for each correct pick 1st round. 4 for 2nd round. 8 for 3rd. 16 for 4th. 32 for 5th. 64 for winner.
- **Upset points** – Whenever there's an upset, bonus points are given to those who picked it. The amount of points is simply the difference of the seeds. For instance, if a 13-seed beats a 4-seed, then 9 bonus points are added.
- **Results on D.J.'s website** <http://www.danieltamer.com/finalfour/>

Winnings –

- **No profit is earned from the pool.** 100% of the money turned in is handed back out to the winners.
- The goal is to get 100 entries.
- The split for winners will be around 1st – 60%, 2nd – 30%, and 3rd – 10%
- Last place gets their money back. They've suffered enough.
